Social Distancing

**Keep one wavelength
apart at 146.52 MHz**

We are looking for more Net Control Operators!! If you are willing, please let me know.

The Net Control Operator tonight is David Jackson KE5ZHF. Pre-net visiting and early check-ins start around 7 PM and the “formal” part of the Net starting with Prayer and Pledge at 7:30 PM.

Here is the rotation for net control. This is subject to change and most the time without notice! If you cannot fulfill your duties on your night, please contact the next weeks net control operator.

Nov 05 - Clarence Shilling
Nov 12 - Eric Richards
Nov 19 - David Jackson
Nov 26 - Clarence Shilling
Dec 03 - Eric Richards
Dec 10 - David Jackson
Dec 17 - Clarence Shilling
Dec 24 - Eric Richards
Dec 31 - David Jackson

MEETING NOTICE!

November Meeting

The November 7th meeting will be held on-the-air on 146.62 PL tone 100 at 9:30am.

The Covid stuff sure has really messed things up! According to the news the Covid seems to be getting worse again. The majority of our members are in the high-risk group. This club is not immune to the virus and has claimed a member as well.

Steve Rogers, Captain of Nash Fire Department and a leader of the Covid guidelines recommends not having a meeting in an enclosed area. In searching for another venue, David Glenn has contacted the Parks department and was informed that the park is already full for that weekend. The club president, Charles Mackey, has contacted the board members this week regarding the November meeting. For the safety of our members, they recommend an on-the-air meeting. I know this is election month, however, the voting can proceed by a roll call of the due paying members that checked in. So, make sure you check in with net control.

Bell Ringing, Angel Tree, and the Christmas Party are other events that need to be discussed.

It's time again for another quarterly ETARC Eatin' Meetin', Tuesday November 3rd. The "gang" will get together in Omaha, Texas (US Hwy 67, one block east of US Hwy 259) at "The Rear of The Steer" restaurant. We'll casually gather together in the back room somewhere between 6:30 - 7:00 pm for food and fellowship. Rear of the Steer has great fried catfish, chicken fried steak, hamburgers, homemade desserts, and of course barbecue.

We had a good group and a great time last quarter. There's no official business, no officers, no agenda, no dues, just food and fun. Come join us, bring a spouse or friend, and meet some new area hams, and visit with old friends.

This is a quarterly event, meeting the First Tuesday in February, May, August, and November.
Hope to see you there!

Find us on 145.23, tone 151.4

Tuesday morning breakfast has changed to B and J Downtown Diner! Located at 422 N. Stateline Avenue just behind the courthouse.

Friday Morning breakfast at Johnny B's. They now open at 6am!

Bring a mask!!

Website and Tower Update

There are a couple of things that needs attention.

1. A computer monitor has been donated!
2. Our club website is comprised of a lot of different modules (plug-ins) written by different companies. I created the website about 5 years ago using free plug-ins.

However, over the years, there is one company that has started charging for their plug-in. This plug-in is the Paid Membership Pro. This plug-in allows people to have unrestricted access to the members only section and allows members to use PayPal to create or renew their account instantly. The version of the plug-in we have will continue to be free. We have not lost any functionality. However, this plug-in is 5 years old and needs to be updated. There has been a lot of security added and updates since we started using it. There are several more functions in this plug-in that we could advantage of.

There are quite a few members that either do not live here or not able to attend meetings but still supports the club by paying dues via PayPal.

This is a very critical function of our website. The plug-in is regular \$340. They have promotions from time to time for around \$240. I suspect they may have another promotion around Thanksgiving or Christmas.

Since this is a new cost to the club, this needs to be voted on at the next meeting.

This is separate from the website hosting which is paid every 2 years. The webhosting will be due in March at \$240. I believe David Glenn mention this in the September Meeting and was passed by the club.

FCC Wants to Re-instate Fees

What used to be free, the FCC is now proposing a \$50 fee for Technician, General or Extra upgrade. This is on top of the ARRL fee of \$15. ARRL strongly recommends filing a complaint with FCC. [To file a complaint go here.](#)

Read more about it.

Virtual Skywarn Training Classes.

From NWS:

We really appreciate the reports you continue to send to us! Your spotting was definitely helpful during Hurricane Laura and it will certainly come to use in the upcoming Fall severe weather season. Due to popular demand, we will be offering four Fall Skywarn Spotter Training Sessions through early November. Please help us advertise this for the public in your area.

GoToWebinar - November 3rd at 7:00 p.m.

Brandon Thorne will be providing training on how to identify severe weather and report it to the National Weather Service in Shreveport. Please make sure to register at: [NWS Shreveport - Skywarn Spotter Training](#)

You can become an official Skywarn Spotter and get a certificate by attending either of these webinars.

For any questions related to this training session, please contact NWS Shreveport Skywarn Focal Point, [Chris Nuttall@noaa.gov](mailto:Chris.Nuttall@noaa.gov), and NWS Shreveport Warning Coordination Meteorologist Charles.Woodrum@noaa.gov.

Steve Ogelsby, KX5FUZ, has been appointed as the ARRL ARES Emergency Coordinator for Bowie, Cass, and Morris Counties.

If you would like to join Bowie County ARES, submit the form at

http://www.4sarc.org/?page_id=1074

We don't always have a radio with us all the time. But most of us don't leave home without our cell phones.

This has become very useful. Since I am in direct communication with the meteorologist at the National Weather Service, I usually know about pending weather before it is publicly broadcasted.

There have been a few times where this was useful when non-weather related information needed to be disseminated quickly.

If you would like to be added to this group, email me at KF5VWN@windstream.net.
